

## Implementation of head tags

- In my previous challenges regarding to my project, I already Implemented the head tags, and this is how I implement it:

```
<div class="main">
  <div class="main__container">
    <div class="main__content">
      <h1 class>WELCOME</h1>
      <h2>SURVIVOR</h2>
      <p>Let's get Crazy</p>
      <button class="main__btn"><a
href="/c:\Xampp\htdocs\wordpress\woocommerce\sequels.html">Get
Started</a></button>
    </div>
    <div class="main__img--container">
      
    </div>
  </div>
</div>
```

- Result:
