

Block, Inline, Class, and Id

- This is how I use the Block, Incline and Id:

```
<nav class="navbar">
  <div class="navbar__container">
    <ul class="navbar__menu">
      <li class="navbar__item">
<li class="navbar__item">
<li class="navbar__btn">
    <div class="navbar__toggle" id="mobile-menu">
```

- As you can see in the result, the menu, button are linked to my CSS:
